## ABOUT US

SS4IT Established in 2013 in Riyadh, Kingdom of Saudi Arabia, SS4IT has started providing technical solutions and consulting in the field of resource planning for government and private enterprises as well as design and development of Internet sites and mobile applications to expand its business and services.

### MESSAGE

Providing innovative, reliable technical services and solutions that meet needs of our customers and create an environment that supports entrepreneurship through a professional team in line with the National Vision 2030

### VISION

To be one of the five leading IT and system-making organizations in the Kingdom.

## VALUES

### Customer Satisfaction

Customer satisfaction is valuable and we strive for it by all means

### Creativity & Innovation

We innovate technology solutions to meet the needs & aspirations of our customers whatever

### Responsibilities

We disclaim our responsibility towards our commitments to our customers and quickly accomplish what has been agreed upon

### Continuous Development

Because we are in the world of technology, it is necessary to continuously develop our products in line with the technological development and with the needs of our customers

## Goals

### Strategic Goals

1. Expansion in Kingdom.
2. Develop Performance & Constantly Improve Products.
3. To Increase Customer Satisfaction.
4. Switching to E-Commerce & Cloud Products.
5. Produce Quality Products with low Prices.

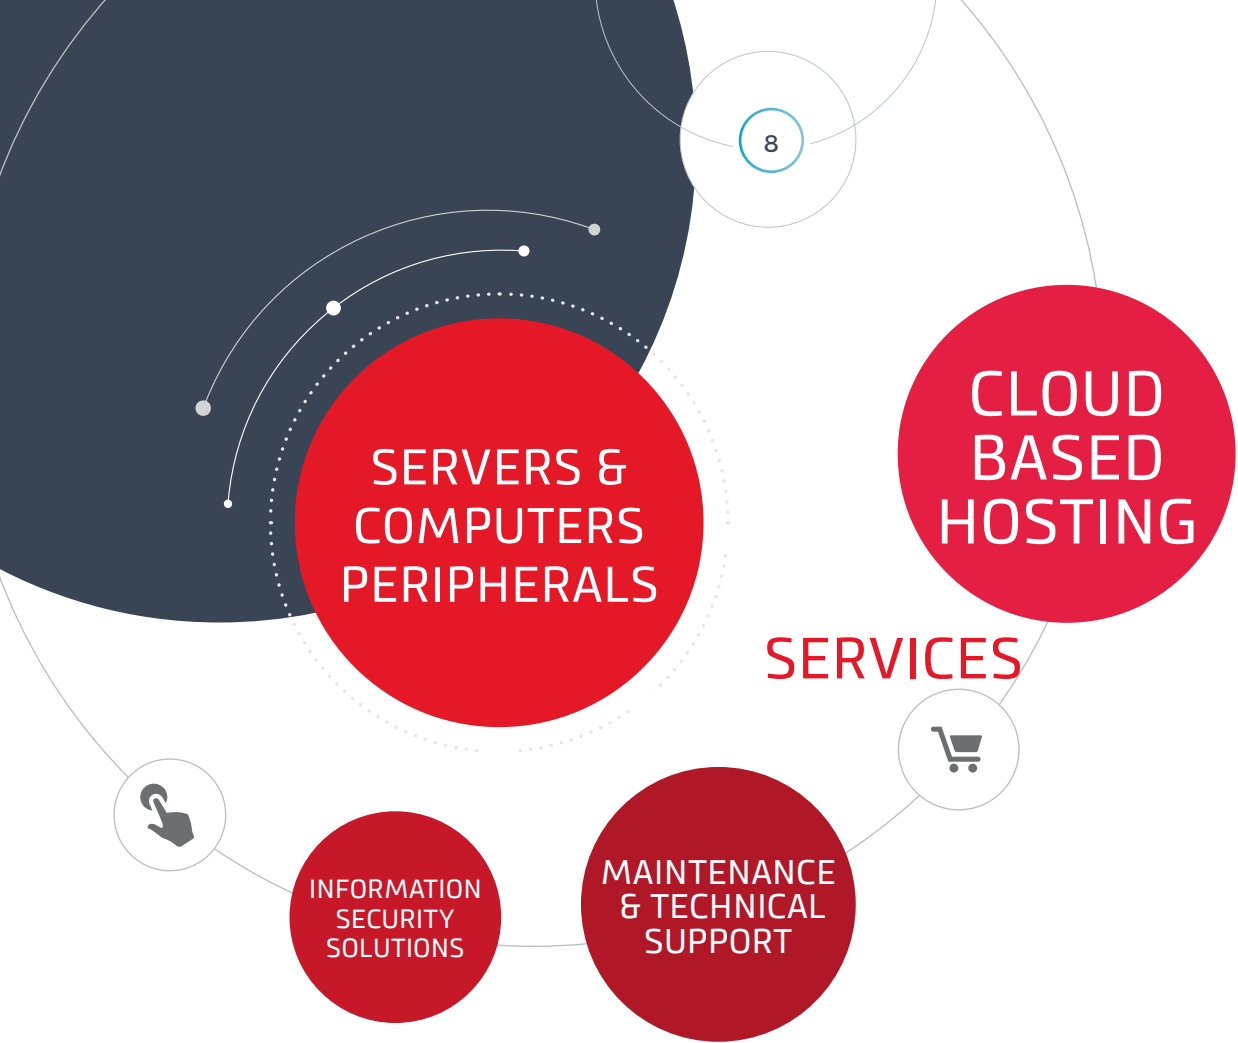

## Our Team Expertise

Providing consultancies and innovating technical solutions of high standards and quality within the fixed time frame requires dedication, enthusiasm and hard work. Therefore, we employ technically innovative and talented technicians in our work team who work together in building projects with a spirit of excitement, professional challenge and initiative maintaining their continuous interest to keep abreast with development and keeping on learning and self-development.

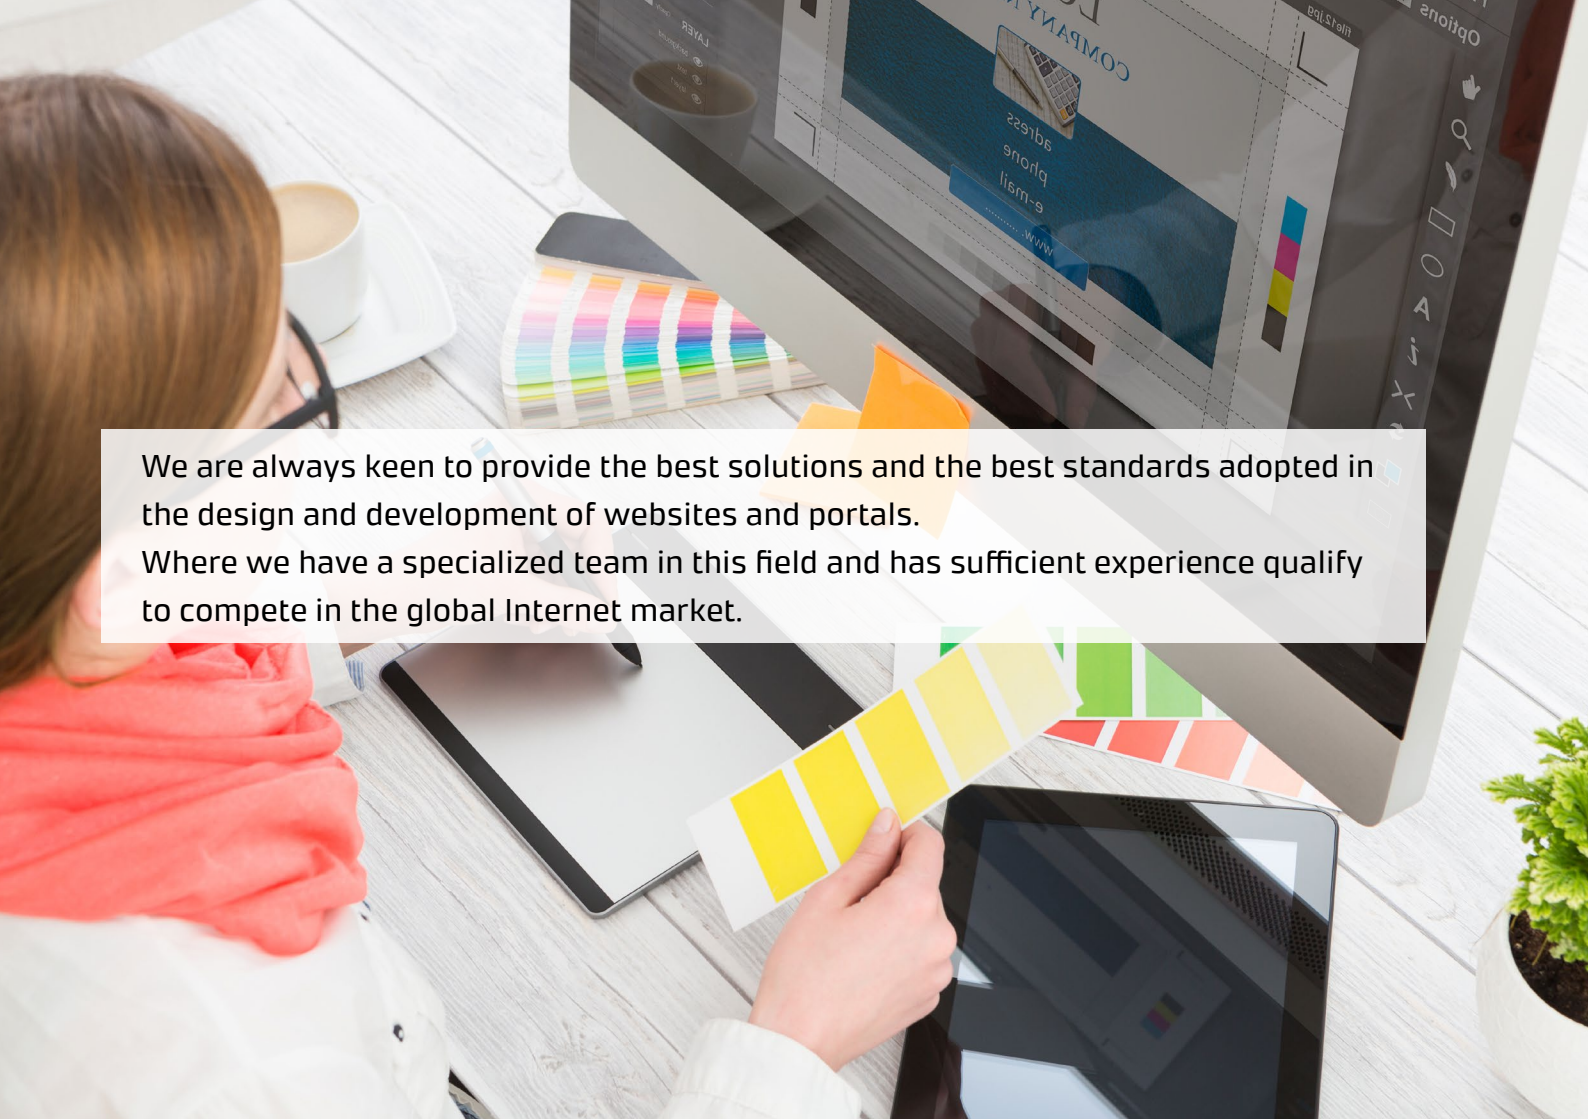

Our team has committed itself to not do “normal” business, which in no way reflects the company’s true message, which is based on the idea of a success partner in providing integrated and suitable interactive solutions. It has also committed itself to not doing any business that is not aligned with our success-based approach. This is why we have progressed with all our projects within a well thought out approach adopting global standards to ensure obtainment of the best results at high levels of quality.

GROWING TEAM OF SS4IT

We are always keen to provide the best solutions and the best standards adopted in the design and development of websites and portals. Where we have a specialized team in this field and has sufficient experience qualify to compete in the global Internet market.
